

WATER^{is} PRECIOUS

Dear Neighbor,

California is in the fourth year of one of the most severe droughts on record. We can all do our share to help California cope with this water shortage. Please join me and our other neighbors in conserving water.

In line with California's new water conservation rules, please consider the water-saving measures below.

Thank you!

**PLEASE
CONSERVE**

- Adjust sprinklers to prevent water from running onto sidewalk, driveway, or street.
- Turn sprinklers off while it's raining or within 48 hours after rain.
- Use hose with shut-off valve if you must wash your car.
- Sweep driveway or sidewalk instead of hosing it down.
- Use a fountain or other water feature only if it recirculates water.
- Other: _____
